

Food Safety and Quality Manager- West Deptford, NJ

As America's largest field tomato grower, we take great pride in our people and our processes which protect our customers and brand.

The successful candidate will be the gatekeeper for food safety and quality for the West Deptford location and will report directly to General Manager with oversight from Enterprise Food Safety Manager and Director. This candidate will have the ability to collaborate with multiple stake holders and thrive in a fast pace business environment. The ideal candidate must be dynamic and have the ability to influence the organization to continue to excel in a food safety culture. The person must be able to learn quickly and manage priorities for the location.

Some Key Responsibilities:

- Lead by example when it comes to FSQA and empower other department managers to lead with FSQA mindset
- Manage internal and external food safety audits and collaborate with other departments to implement corrective actions.
- Provide leadership and training to supervisors to complete and monitor key process control measures and step in as needed to support team members
- Lead employee training programs
- Supervise and support sanitation manager and team
- Lead investigations to determine root causes for customer complaints/ environmental positives and close out corrective actions
- Manage traceability documentation and mock recalls/trace-back for both products and packaging
- Share best practices and lessons learned during national FSQA conference calls
- Be the advocate for FSQA and sanitation team members

Experience and Skills Required:

- Good verbal and written communications skills
- Hardworking, dependable, safety conscious
- Bilingual English/Spanish preferred
- 5+ years industry experience in food safety/quality preferred
- Understanding of preventive controls and hazard analysis
- PCQI certification preferred
- Familiar with GFSI standard
- Fresh produce experience preferred
- Bachelor's degree in biology, food science, chemistry, or other related sciences is preferred however, we will consider candidates with relevant industry experience
