- Plan for and manage external and internal audits, customer audits, and other food safety audits.
- Develop, review, monitor and update, as required, policies and procedures related to food safety compliance matters.
- Provide leadership to direct reports as well as others on food safety and sanitation teams.
- Be responsible for adherence to all food safety regulatory and GFSI standards.
- Develops, implements, and manages food safety systems designed to ensure continuous compliance with all food safety regulatory and GFSI standards.
- Ensure a high level of internal and external customer service.
- Investigate (and correct) customer issues and complaints relating to food safety and quality.
- Oversee food safety at Company packing houses / farms to ensure high productivity and high technical integrity.
- Manages supplier approved programs and FSVP.
- Design, develop, and implement food safety training programs
- Interact with vendors and procurement to ensure food safety of all purchased materials and lead supplier approval process.
- Provide leadership in addressing audit nonconformities, implementing corrective actions and investigations to determine and address root analysis and resolution as needed.
- Conducts management reviews of the food safety system.
- Follows up on and closer of pending preventive and corrective actions requests.
- Ensure food safety and sanitation trainings are conducted and documented to assure that all employees are fully capable of achieving Quality & Food Safety inspections.
- Ensure and maintain a food safe environment through compliance to all requirements of programs / policies for Food Safety, and Good Manufacturing Practices, HACCP, Environmental monitoring, and as may be required by Company, Local, State and Federal mandates, or program.
- Manages Compliance Specialist.
- Other related duties as assigned.

KNOWLEDGE / SKILLS / ABILITIES:

- Bilingual English / Spanish strongly preferred.
- Highly skilled in Microsoft Office software programs including Excel.
- Proficiency in SharePoint preferred but not required.
- Excellent verbal and written communication skills required
- Strong analytical and organizational skills.

EDUCATION / EXPERIENCE:

- Previous management experience with knowledge in packing operations in a fresh produce industry.
- Bachelor's degree in a field related to Food Science, Agriculture, or Quality Control preferred.
- 2-5 years experience in Food Safety, preferably Produce.
- Public or private training on produce-specific courses such as PCQI, GAP, GMP, GFSi, and HACCP, and Crisis Management preferred.

WORKING CONDITIONS:

- Ability to work in a cold environment for some tasks.
- Ability to work outside and in open field conditions for some tasks.
- Fast paced working environment.

ADDITIONAL REQUIREMENTS

- Ability to travel required.
- Capable of lifting 40lbs.

Core Competencies and Behaviors

Team Oriented

- Works cooperatively and collaboratively with others
